R. P. LYTLE, Fostmaster. Decatur, III., Nov. 24, 1876. CURIOUS WILLS.

The head of a great industrial family, which had been known for generations for its eccentricities, remarked in his will: "To my only son, who would never follow my advice, and has treated me rudely in very many instances, iuresiduary legatee (as till this day he was), I give him £100,000." It is on record that another gentleman once directed his executor to purchase a copy of a picture representing a viper biting the hand of the man who had saved it, and to give that to a certain friend of his, in lion of a legacy of £3,000 which his, in Itou of a legacy of £3,000 which he had left him by a former will, now rovoked and burned. "I give and dovise to my son, Daniel Church," said Mr. S. Church, in his will, "only one shilling, and that is for him to hire a porter to carry away the next badge and frame he steals." Dying people have often thus had a grin at their friend's expanse. A sertain magnate of riend's expense. A certain magnate of Plymouth once decreed by his will that his wife should out off one of his toes! or fingers to make sure he was dead, adding that he made the request so that has she had been troubled with one old fool, she will not think of marrying a second," though why cutting off a too from her deceased lard should have prevented her choesing a successor to him does not clearly appear. A Mr Southwark, gave "to John Abhot and Mary, his wife, sixpence each, to buy for each of them a halter, for fear the sherifly should not be provided." A Mr. Darley left to his wife a shilling, "for picking my posket of 60 guineus." A bookseller in Bond street, London,

DECATUR, ILLINOIB: Tuesday Evening, Nov. 30.

THE latest reports from Washington are to the effect that Randall stock is coming up in the speakership market, and all because he is understood to be in favor of Tom Scott's Southern Pacific Railroad scheme. The Democratic caucus is called for next Saturday evening, and then we shall know who is going to be who.

Tirk Chief of the Bureau of Statistics has furnished the statement of importations from Great Britain for the ten months onding Out. 31, from which it appears that the enforced economy of the panie still presses heavily upon us. Our importations of railroad iron were thought to have touched the lowest point last year, but, while in the ten months of last year we imported 91,626 tone, we have imported in the corresponding period of this year only 17,711 tons. This is perhaps, good New York Tribune gives what appear nows for the existing roads, but it is to be candid impressions of the work hardly an indication of active busines being done by Messrs, Moody and Santhroughout the country.

Union Thanksgiving Service.- We have received from Rev. R. M. Sargent, of Illial, an account of a very interesting union thanksgiving service, held in the Congregational church of that town, n which the Christian Church of Harristown, the Baptist Church of Latham, the Methodist Church of Warrensburg, and the Congregational Church of Illini,

united.

Introductory services were conducted by Rev. Mr. Wilson, of Latham, which were followed by a brief discourse by Hev. B. M. Sargent, paster of the church where the service was held. The sermon was followed by Whittier's corn song, when there was an offering of the various farm products which had been raised by persons present. About a dozen different varieties of com were exhibited, on which a blue ribbon was awarded to the Messrs. French, and the rad to Mr. O. E. Sackett. Musters Howard Batchelder, John Batchelder, John Childs and Waiter Major, received each a nice book as a premium upon their respective offerings. All of the articles presented were then sold for the benefit of the society, the avails amounting to \$29,40. Thouffair was a very pleasant one, and the new feature of presenting offerings of the fruits of the field, was eminently appropriate to the occasion.

S. Einstein is selling good standard prints, in desirable black styles, for six [80-06] cents a yard.

An Interesting Relie.-We have at this office a chip from the big tree now in St. Louis, on its way to Philadelphia, where it is to represent the Golden State in the centennial exhibition next year. The log now in St. Louis is about twenother articles. The person having it in charge has a number of chips saved from visitors. The specimen we have was obtained by Mr. A. J. Wood, while on his visit to St. Louis last week. . It may be

Sociable.-The Good Templars are to hold their regular monthly Sociable on Thursday evening of this week, to which not only the members of the lodge but all others are invited. Those members who have become somewhat irregular in their attendance on the regular weekly meetings of the association will find this a good apportunity to renew their zeal and commence again in the good work.

Dead .- By consulting our telegraphic columns to-day our readers will learn of the death of paymaster Carpenter, who was injured by a collision on the St. Louisbranch of the T., W. & W. one of the greatest importance to study, and has to be discussed daily by all of us. My own opinion has already been expressed, that the evils attending it on the community at large are vastly overestimated; and judging from my own experience, the persons with unstrang nerves who apply to the doctor aro, not the prime minister, the bishops, judges, and hard-working professional men, but merchants and stock brokers retired from business, Government clerks who work from 10 to 4, women whose domestic duties and bad servants are driving them to the grave, young ladies whose visits to the village school or Sunday performance on the organ are undermining their health, and so on. In short, in my experience I see fresh greceries, just received from the RGo to Einstein's if you want to buy more ailment arise from want of occugreat eastern markets.
